

## Your boat is the classroom.

### Hands on Training ...

- Customized Power or Sail training individually designed to answer your questions & address your needs
- Instruction on board your vessel where the training is of greatest value to you
- Learn under-way or at dockside as your individual situation demands
- Build skill and confidence with instruction and training

### You pick the topic...

#### Navigation & Electronics

- GPS, Radar, Loran, Weather Fax, more
- Create way-points & navigate routes
- Fix your position, navigate in current
- Day and night time navigation
- Navigate with Radar: take bearings, avoid collisions, keep a proper watch
- Celestial Navigation underway: coastal practice or off-shore sea voyage

#### Docking & Maneuvering

- Strengthen confidence & skill
- Control your vessel with supervised practice in situations of graduated difficulty
- Master close quartered situations
- Anchoring: Evaluate situations, understand problems

#### Sailing & Seamanship

- Basic & advanced sailing theory experienced on your boat: maxi yachts to wind surfers
- Prepare your crew and boat for local, coastal or oceanic voyages

### Novice or Advanced...

#### Experienced Boat Owners

- Refresh your skills docking, navigating, ship handling or sailing
- Train for voyages of greater scope: expand your horizons

#### New & First Time Owners

- Operate your new boat with confidence
- Fully utilize the new or unfamiliar systems
- Hands on docking & navigation experience

#### Family members

- Empower your family with knowledge and increase their enjoyment of boating
- Anchor your boat without sinking your marriage!
